

Dunellen Recreation Department

2012 Spring Baseball & Softball Registration

Notice: This is to advise all participants in Dunellen Recreation activities that under New Jersey State Law the Borough of Dunellen, along with all municipalities, are protected against lawsuits under a statute know as Title 59. As a result, if your child is injured during any of the Borough's athletic activities, you will most likely be unable to recover any damage through litigation.

Since we do not provide accident insurance, and in view of the above, it is our suggestion that you be certain that your child is covered under your own health insurance plan, or that you purchase the optional accident insurance available through the school system. The optional insurance offered through the school system can be extended for a small additional premium to provide 24 hours a day accident protection for your child.

From past experience, we realize that parents may be unaware of the protection provided to all public entities under the law. Further, many parents often do not pay attention to the accident insurance offer they receive through the school system. As a result, there have been situations where a child without proper accident insurance has been injured during recreation activities sponsored by the Borough of Dunellen. Therefore, we suggest you review the above and be certain that you have sufficient insurance coverage for your child.

Before the enrollee can become active in a Dunellen Recreation program, this form must be completed and signed by their parent or legal guardian and returned to the Dunellen Recreation Office with payment in full.
